

Activities for Georgi the Goat Story

Georgi really knew how to play! Start a class letter with each student writing their first name and about how their family celebrates birthdays, Easter and Christmas. Include a sentence about what they do in church for Easter and Christmas. In a future note, I'll get you an email address where you can send this summary of your students and their celebrations.

If the students want to write a story, they could write about a pet or other animal that did a lot of naughty things, or funny things.

For those that like to draw, another picture will soon be posted. They can color it and add other things to the scene.
